GEORGIA

One of the thirteen original colonies

COLONIAL PERIOD

Georgia was founded in 1733 and Savannah was established the same year. Informal postal communication between Savannah and Charleston began almost immediately. By the next year the colony established a regular mail service between the two towns.

Georgia was the fourth state to ratify the Constitution, doing so on January 2, 1788. The colonial period ended on September 22, 1789 when the new Congress passed an Act for the temporary establishment of the Post Office.

An * before a listing denotes institutional ownership, and in most cases these covers are not priced unless similar covers in private hands are known.
